Paul Taylor – Managing Director, Line Maintenance
Sonia Alvarado – Director, Labor Services M&E

Joint Update

March 11, 2019

Technician Integrated Seniority List (ISL) and Transition Agreement (TA) discussions continued last week. Representatives from Alaska and AMFA met on Wednesday afternoon to continue those discussions. We agree that we are not at an impasse and will continue to meet and work through the issues.

In addition to ISL and TA discussions, the Company presented a draft M&E Commuter policy and committed to providing 401(k) plan information for all work groups at Alaska by the end of the week. AMFA will take some time to review these documents before responding.
